

CONTENTS

Foreword by Ram Menen viii

Welcome to Aviation Logistics x

01 Air cargo – trying harder 1

Supply chains under pressure 5

Air cargo's strengths 6

Modal shift 7

02 The world of air cargo, Oliver Evans, former TIACA 9

Profit 10

Planet 12

People 13

03 Air cargo history 19

Regulations and agreements 19

The Berlin airlift 21

The growth of air freight 22

The air freight market today 27

Conclusions 33

04 Airport connections 37

Globalization 37

Environmental pressures 38

Airport types 40

Integrators 43

Summary 43

05 Cargo handling agents – the impact of IT 45

Early days 45

Airlines at the start of computer technology 46

Change factors 49

The role of the General Handling Agent 59

Conclusions 66

06 Road feeder service 67

On the road 67

The European market 69

Conclusions 76

07 Freight forwarder 77

The development of the forwarder 78

Associations and networks 79

Case study: Hellmann Worldwide 80

08 Cool logistics 87

The cool chain 87

Creating standards 89

The cool chain business 89

Case study: The Fish Society goes global 94

Case study: Live lobster Clearwater perspective 97

Conclusions 103

09 Express and mail 105

Market sectors 106

Changes in trading patterns 107

Integrators 107

Postal services 109

Conclusions 111

10 Special air cargoes 113

Charter brokers 114

Animals 114

Lift off for heavyweight freighters 118

Flying fashion 121

Art craft 123

On the grid 124

Conclusions 125

11	Cargo security and risk	127
	Crime	127
	Terrorism	130
	Natural disasters	133
	Health hazards	135
	Cybercrime	140
	Corruption	140
	Conclusions	141
