PART ONE Knowledge management – key concepts and models 1

01	Introduction to knowledge management	3
	1.1 What is knowledge and knowledge management?	3
	1.2 The value in knowledge and knowledge management	12
	1.3 Knowledge management approaches	17
	1.4 Knowledge management – an interdisciplinary framework	21
	Key learning points	24
	Review questions	25
	References	26
02	Tacit and explicit knowledge	29
	2.1 Knowledge classification	29
	2.2 SECI model (tacit and explicit knowledge conversion)	35
	2.3 Ba theory (knowledge space)	38
	Key learning points	41
	Review questions	41
	References	42
03	Knowledge management process and lifecycle models	44
	3.1 Key knowledge management process stages	44
	3.2 Knowledge management lifecycle models	53
	Key learning points	59
	Review questions	60
	References	61

PART TWO Building knowledge competence in organizations 63

04 Organizational learning 65

- 4.1 From individual through group/team to organizational learning 66
- 4.2 Organizational learning frameworks 74
- 4.3 Learning cycles – single, double and triple loop learning 81
- 4.4 Management of organizational memory 89
- Key learning points 96
- Review questions 98
- References 99

05 The learning organization 102

- 5.1 Definitions of a learning organization 102
- 5.2 Theoretical models for developing learning organizations 105
- 5.3 Cross-cutting themes across different learning organization models 122
- Key learning points 126
- Review questions 128
- References 129

06 Organizational culture for knowledge sharing and learning 131

- 6.1 Concept of organizational culture 132
- 6.2 Classification of organizational culture 136
- 6.3 Impact of organizational culture on knowledge sharing and organizational learning 149
- 6.4 Creating organizational culture to foster knowledge sharing and organizational learning 153
- Key learning points 161
- Review questions 162
- References 164

PART THREE Crossing knowledge boundaries 169

- 07 Communities of practice 171**
 - 7.1 Definitions, features and lifecycle of communities of practice 171
 - 7.2 Types of CoP 182
 - 7.3 Can CoPs be managed? 185
 - 7.4 What a successful CoP looks like and how to build one 191
 - Key learning points 193
 - Review questions 193
 - References 194

- 08 Knowledge boundaries and boundary-spanning mechanisms 196**
 - 8.1 Knowledge boundaries 197
 - 8.2 Boundary-spanning mechanisms 201
 - 8.3 Boundary-spanning knowledge activities in industrial applications 214
 - Key learning points 225
 - Review questions 227
 - References 228

- 09 Knowledge networks 231**
 - 9.1 Introduction 231
 - 9.2 Network structural properties 233
 - 9.3 Relational properties 238
 - 9.4 Nodal properties 243
 - Key learning points 247
 - Review questions 248
 - References 249

- 10 ICT-enabled knowledge management: Internet of Things and big data analytics 252**
 - 10.1 Linking knowledge management and ICT 253
 - 10.2 Internet of Things and knowledge management 254
 - 10.3 Big data analytics and knowledge management 263
 - Key learning points 274
 - Review questions 275
 - References 276

PART FOUR Knowledge support for business decision making 279

- 11 The business decision context 281**
 - 11.1 Business environments that challenges business decisions 282
 - 11.2 Links between different aspects of business and associated decisions 289
 - 11.3 Business decisions at different levels 293
 - Key learning points 296
 - Review questions 297
 - References 297

- 12 Human decision-making processes and knowledge requirements 299**
 - 12.1 Concepts of decision making 299
 - 12.2 Different decision process models 306
 - 12.3 Calling for knowledge support in decision making 314
 - Key learning points 318
 - Review questions 319
 - References 319

- 13 Knowledge-based decision support systems 322**
 - 13.1 From DSS to KB-DSS 323
 - 13.2 Key technologies for knowledge modelling and knowledge reasoning 325
 - 13.3 KB-DSS applications 341
 - Key learning points 347
 - Review questions 348
 - References 348
