PART ONE Legacy 1

01 History (now and then) 3
A look back at the 'accidental' project manager 3
Projects have been with us forever 5
The three generations of project managers 8
Chapter summary 9
Notes 9

02 Is everyone a project manager? 10
Core skills versus niche capability 10
Accidental or intentional 16
Do we still need project managers? 17
Chapter summary 19

03 The evolution of success 20
Knowing what real looks like 20
Knowing what success looks like 22
Chapter summary 31
Notes 32

04 Knowing how to keep developing 33
Continuous learning 33
Chapter summary 35

Part One: Summary 36

PART TWO Challenges 37

05 The real project world 39

What the project managers said 39

What everyone thought 43

What everyone (who was 'young') thought 43

Chapter summary 46

Note 46

06 Communication 47

Tweetfacelinkblogpodoogle 47

Effectiveness 49

Generations 51

Too much communication 52

Chapter summary 56

Notes 56

07 Virtuality 57

Location, location, location 57

Added risk, greater benefits 58

The performing global team 61

Actual success in a virtual world 65

Chapter summary 66

Note 66

08 Time 67

More with less 67

Begin well 68

Waste not, want not 70

Optimize what you have 71

Chapter summary 77

Notes 77

09 Executive sponsoring 78

Campaign for real project sponsors 78

The 'accidental' sponsor 80

Strategies for project sponsorship 87
The missing dashboard 90
Chapter summary 91
Notes 91

10 Strategic connection 93

Orphans and strays 93
The buck stops here 97
Keeping strategic alignment 101
Chapter summary 103
Note 103

11 Complexity of projects 104

Defining ‘complex’ 104
Available but not capable 107
Profiling 112
Visibility of purpose 114
Chapter summary 117

12 Lessons learned 118

Path to insanity 118
How can we share the lessons? 120
How can we close out projects better? 121
The real problem 122
Chapter summary 127
Notes 127

13 Training and support 128

Training 128
Types of learning 129
No shortage of opportunities 131
Support 133
Green beans and old beans 134
Chapter summary 136
Notes 136

14 Succession planning 138

- Do we ever learn? 138
- Organizational responsibility 139
- Chapter summary 140

15 Out of control 141

- Loss of control 141
- Chapter summary 142

Part Two: Summary 143

PART THREE Multi-generations 145

16 Language and reality 147

- Reality, challenges and opportunities 147
- Are we managing this well? 151
- What are we getting right? 155
- What could we do better? 157
- A challenge or a threat? 159
- Chapter summary 160
- Note 160

17 Opportunity and progress 161

- Passing the baton 161
- Doing a better job 163
- More or less of a problem? 164
- Profiting from the multi-generations 167
- Chapter summary 170

Part Three: Summary 171

PART FOUR The future 173

18 Beyond today 175

- Today, tomorrow and beyond 175
- Consultative project management 177

Professional project management associations	178
The role of the PMO	181
The rise of the CPO	182
Chapter summary	183
Notes	183
