

CONTENTS

Foreword xi

01 Supply chain finance: solutions for financial sustainability, risk management and resilience in the supply chain 1

Abstract 4

Introduction: supply chain finance (SCF) in theory and practice 4

Concluding outlook 11

References 12

PART ONE SCF history and perspectives 13

02 Supply chain finance (SCF): history and future directions 15

Abstract 17

Introduction: the emerging concept of SCF 18

A little history: what made cash and working capital king? 19

Problems with many of the approaches to improving your own cash position 25

Considering flow, working capital and cash from a supply chain perspective 26

Potential solutions/approaches to better cash management in the whole supply chain 27

Common supply chain policies 31

Financing other balance sheet items – capital, inventory and more 32

Potential funding solution 33

Where do we go from here? 34

Notes 36

References 36

03 Suppliers, customers and firms' financial decisions 39

Abstract 40

Introduction 40

Capital structure 42

Trade credit 45

Supply chain disruptions 46

Major customers: incidence, pros and cons 51

Major customers: real effects 54

Conclusion 58

Notes 58

References 59

04 Supply chain finance: definition, modern aspects and research challenges ahead 63

Abstract 64

Introduction 64

Supply chain finance (SCF) 65

Literature review 77

Notes 90

References 91

PART TWO SCF in action 97

05 Optimizing cash flows for a retail supply chain coordinator 99

Abstract 99

1 Introduction 100

2 Previous research in this field 102

3 The retail supply chain coordinator's 'when-to-pay' problem 106

4 'When-to-pay' cash flow optimization using mathematical programming 108

5 A numerical example 111

6 A robust optimization approach for modelling uncertainty 115

7 Conclusions and future research directions 117

References 119

- 06 Supply chain finance opportunities by managing payables discounts 123**
Introduction 124
Discount programme management: the next low-hanging fruit 125
Prescription for effectively managing a payment discount programme 129
Implications for the reader 135
References 136
- 07 Mapping and managing the financial supply chain 139**
Introduction 140
How to start building your supply chain map 142
Incorporating real data 148
Further strategic implications 150
Conclusion 156
References 157
- PART THREE SCF in practice – case studies 159**
-
- 08 Supply chain finance and cyber risk: an illustrative case study 161**
Abstract 163
Introduction 163
Cyber risk and SCF: the case of Paul Hartmann Italy 164
Conclusions 174

- 09 Commodity risk management at BMW: price indices and contracts 177**
Abstract 179
Introduction 179
Background 180
Price indices 182
Implementation of price indices at BMW 187

Conclusion 192

References 193

10 A business partner's view on decision-making challenges in the supply chain 195

Abstract 196

Introduction 196

Sacrificing long-term profitability for short-term gains 197

Failure to calculate total cost of ownership 200

Failure to align the organization correctly on service levels
required vs cost desired 202

Concluding thoughts 204

References 204

**PART FOUR SCF in research – trends and future
research areas 205**

11 Exploring fragmentation in the supply chain finance (SCF) ecosystem 207

Abstract 208

Introduction 209

The current SCF ecosystem 211

Biomimicry – learning from natural ecosystems 215

Discussion and propositions 216

Conclusions 222

References 223

12 Foundational premises and value drivers of blockchain-driven supply chains: the trade finance experience 225

Abstract 227

Introduction 227

Foundational premises of blockchain-driven
supply chains 229

Blockchain technology case analysis 237

Value drivers of blockchain-based supply chains 244

Conclusion and outlook	251
