Introduction: The Future Home in the 5G Era and Beyond 1

The Future Home: the hub for hyper-connected living 2

Roadmaps and capabilities for success in the new home market 3

Experience-rich home services: still held back by low tech 4

Data security: the factor putting CSPs in pole position 5

Orchestrating data management as a consumer trustee: the Holy Grail 6

Overcoming inertia, tech hurdles and entrenched attitudes 6

01 A day in the life of a future home 9

A life with the problems taken care of 11

At home alone, and out with friends – simultaneously 12

The ever-present personal assistant and servant 12

The empty home doing its homework 13

At home while on the move to work 14

At work and feeling very much at home 15

Collapsing distance to maintain contact 16

02 Consumer needs in a hyper-connected world 17

Five megatrends shaping hyper-connected lifestyles 19

One: The hyper-connection and hyper-personalization of daily life 19

Two: Millennials and Gen Z, the principal architects of the Future Home	21
Three: The rapid ageing of society and the desire to age in place	24
Four: The rise of Do It For Me (DIFM) and the fall of Do It Yourself (DIY)	26
Five: ‘Alone together’ in the digitized habitat	27
How people really think and feel about homes – in eight mindsets	28
Mindset 1 – Drone Parents	30
Mindset 2 – Hip-happening Parents	31
Mindset 3 – Savvy Seniors	31
Mindset 4 – Social Grandparent	32
Mindset 5 – Ambience Leader	33
Mindset 6 – Wired-up Urbanite	34
Mindset 7 – Conscientious Controller	34
Mindset 8 – Chaotic Creative	35
Three key themes	35
Identity	36
Spatial revolution	37
Tech Tensions	38
Takeaways	39
 03 From use cases to business cases	 41
Life scenario 1: Home life for the Hip-happening Parents	43
Intelligent assistance with childcare	43
Hassle-free plug-and-play technology	43
The home that knows each inhabitant personally	44
The home health check-up	45
Taking home with you wherever you go	45
Fostering family togetherness	46
Life Scenario 2: Advanced healthcare at home	46
Freeing seniors to age at home	47
Adapting an old home for new needs	47

Keeping in touch with a grandparent via technology 48
Constant health monitoring and maintenance 48

Takeaways 49

04 Turning homes into 5G Future Homes 51

The limited success so far of connected home tech 53

Excessive connected home device prices 57

Impractical set up procedures 58

Fragmentation 59

The weaknesses of Wi-Fi 60

How 5G can turn the connected home into the Future Home 63

New spectrum bands create high 5G speeds 64

5G is more responsive and reliable 66

5G can connect 10 times more devices than 4G 67

5G's congenial enablers 68

eSIM solves the size problem 69

Edge computing removes network mileage 69

Advanced data analytics for cleverer devices 70

First steps: mastering four challenges 71

Challenge 1: Getting ecosystems right to lower the cost of Future Home devices 71

Challenge 2: Leveraging 5G to solve setup issues 71

Challenge 3: Using 5G to solve the fragmented connectivity issues of today's homes 72

Challenge 4: Uniting information pools and granting access for the greater good 72

Takeaways 73

05 Privacy and security – two separate challenges of the 5G Future Home 75

The paradox of the Future Home: protecting data that must also be shared 78

Data sharing in today's connected homes 79

Three touchpoints for CSPs to deal with data safety successfully	82
Cross-industry security certification for connected devices	84
Continuous and perpetual monitoring	86
Sowing customer trust and loyalty among the young	87
CSPs' strong starting point on data safety	88
Takeaways	89

06 The rise of the connected living ecosystem builder 91

Who should be the guiding hand? Three reasons why communications service providers (CSPs) are in pole position	95
Old trust yields new trust	95
Customer care experience	96
Mission-critical infrastructure	97
Breaking up the CSP value chain to unlock the Future Home – six areas and six imperatives	98
One: Reinvent the front office digitally	99
Two: Reinvent the back office	100
Three: Train and equip your talent for the future CSP	102
Four: Kick-start rapid-fire product development	103
Five: Revamp your technology platforms	104
Six: Activate a pervasive connectivity layer	105
Takeaways	107

07 Emerging business models for the future home 109

The limited return for CSPs of conventional home services	111
Voice-controlled platform devices: leading the way to the Future Home	112
How multi-sided platforms will disrupt vertical integration	113
Seeking service relevance for the end user within ecosystems	114

Conquering new control points as a data gatekeeper	116
Justifying data control through excellent user experience	117
The platform need for partnerships and alliances	118
Why mere connected home apps are not enough	120
The protracted game of aligning platform partner incentives	121
How basic services can attract new ecosystem partners	121
Takeaways	122

08 Creating incentives for the Future Home ecosystem 123

The Future Home as pre-emptive multi-tasker	125
Five properties for a really effective Future Home	127
How data silos kill viable ecosystems and good user experience	128
Breaking down data silos for the home – a brief history	130
The potential of universal translation platforms	131
The universal blueprint for Future Home platforms	132
Why the platform core should be open to everybody	134
Build it and they will come	135
How CSPs can lead the way to the Future Home	136
Takeaways	137

09 The road to the Future Home 139

Life closely intertwined with technology	141
The socio-demographic megatrends shaping hyper-connected lifestyles	142
The great variety of specific use cases	143
Fragmentation – the barrier to development of the Future Home	143
5G: the connectivity game changer	144
The need to build consumer trust via the strongest possible security, privacy and ethics	144
Future Home orchestrators and gatekeepers – CSPs reloaded	145

The wise pivot 146

Attracting partners to attract consumers 147

Breaking down data silos to benefit both users and ecosystem
players 147

CSPs at the crossroads 148

Takeaways at a glance 149

Glossary of terms 153

Endnotes 161
